13	<b>Jiffy Lube</b> 6070 Stanford Ranch Rd Rocklin, CA 95765 (209) 339-0791
14	<b>Kragen Auto Parts #1421</b> 5601 Pacific Street Rocklin, CA 95677 (916) 624-0393
15	<b>Pick-N-Pull, Rocklin #3</b> 6355 Pacific St (Taylor Rd) Rocklin, CA 95677 (916) 784-6350
16	<b>SpeedDee Oil Change &amp; Tune-Up</b> 5490 Pacific Street Rocklin, CA 95677 (916) 632-8495
17	<b>The Refinery Mobile Division</b> 3630 Cincinnati Avenue Rocklin, CA 95765 (916) 543-7337
18	<b>AutoWest Buick GMC</b> 150 Automall Dr Roseville, CA 95661 (916) 783-2077
19	<b>AutoWest Dodge, Chrysler, Jeep</b> 230 Automall Dr Roseville, CA 95661 (916) 774-7801
20	<b>AutoWest Honda Roseville</b> 500 Automall Dr Roseville, CA 95661 (916) 783-7733
21	<b>AutoWest Mazda Subaru BMW</b> 110 Automall Dr Roseville, CA 95661 (916) 780-3149
22	<b>Firestone Store #3542</b> 1167 Roseville Square Roseville, CA 95678 (916) 783-0431
23	<b>Kragen Auto Parts #1776</b> 3993 Foothills Blvd Roseville, CA 95747 (916) 782-3211
24	<b>Kragen Auto Parts #4026</b> 106 Harding Blvd Roseville, CA 95678 (916) 783-0424
25	<b>Roseville Fuel Plaza dba The Refinery</b> 9077 Foothills Blvd, Ste 100 Roseville, CA 95747 (916) 797-9434
26	<b>SpeedDee Oil Change &amp; Tune-Up</b> 660 Sunrise Avenue Roseville, CA 95661 (916) 781-6665
27	<b>Tahoe City Chevron Service</b> 310 River Rd Tahoe City, CA (530) 583-0211
28	<b>Eastern Regional Landfill</b> Cabin Creek Road Truckee, CA 96161 (530) 587-4235

## USED OIL AND OIL FILTER RECYCLING

Used oil is a toxic substance that can be environmentally hazardous if not disposed of properly. One gallon of oil - the amount of a typical oil change - can contaminate one million gallons of drinking water. The Western Placer Waste Management Authority (WPWMA) and State of California provide numerous collection centers for safe disposal of your used oil and oil filters.

## WHY RECYCLE USED OIL?

Did you know that used motor oil never wears out? It just gets dirty and can be recycled, cleaned, and used again. Recycling used motor oil conserves a natural resource (oil) and is good for the environment too! Motor oil poured onto the ground or into storm drains, or tossed into trash cans (even in a sealed container) can contaminate and pollute the soil, groundwater, streams, and rivers. Recycling your used motor oil reduces this pollution threat. When you take your used oil to a certified center for recycling, you are protecting the environment, conserving a valuable resource, and getting paid for it. That's a winning combination!

## PLEASE ALWAYS REMEMBER TO:

- ◆ Transport oil in containers with a tightly sealed lid.
- ◆ Place used oil filters in a re-sealable bag or other leak-proof container.
- ◆ Take in no more than 5 gallons of used oil at one time.
- ◆ Always wait for an attendant to accept your used oil.
- ◆ Avoid contaminating used oil with any other substances.

# HELP KEEP OUR WATERS CLEAN!

## ABOUT THE CERTIFIED CENTERS

The Integrated Waste Management Board encourages the recycling of used motor oil by certifying used oil recycling collection centers throughout the state. Certified Used Oil Collection Centers will take used motor oil from the public and will pay you a 16 cents a gallon. Most centers will take up to 5 gallons at a time.

## PLACER COUNTY'S STORMWATER QUALITY PROGRAM

The goal of Placer County's Stormwater Quality Program is to protect the health of all of the County's creeks, streams, rivers, and lakes. Stormwater is not treated and flows directly into natural waterways. People and wildlife can become sick or die from eating diseased fish and shellfish or ingesting polluted water. By recycling your used oil, you are helping us keep the water we use for swimming, fishing, and providing drinking water clean.

## CLOSING THE LOOP - RE-REFINED OIL SAVES RESOURCES

You've made the effort to recycle your used oil and keep the environment clean. But what happens to that oil after you drop it off at a collection center? Of the nearly 750 million gallons of used oil collected each year, 43 percent goes to asphalt plants, 12 percent generates electricity, and 14 percent is refined to virgin conditions. The remainder is used for fuel or in other industries such as steel and paper mills. Re-refined oil is mostly purchased in bulk and used by fleet vehicles... so if you operate a fleet, please request a bid for re-refined oil from your employer.

## HAZARDOUS WASTE

1. Never use soaps or detergents to clean oil or fuel. Soaps emulsify oil, breaking it into invisible droplets that disperse through the water. Adding soap is IL-LEGAL and bad for the environment.
2. Many cleaning and maintenance products are considered hazardous waste, including antifreeze, lead-acid batteries, used oil and oil filters, oil/fuel saturated absorbents, solvents, paints, zincs, varnishes and cleaning products.
3. Review storage of products every six months and properly dispose of old or unnecessary products. Be sure to bring all hazardous waste to your local Household Hazardous Waste Facility.
4. Practice good preventive engine maintenance. Keep engines well tuned and operating at peak efficiency. Inspect fuel lines, hoses, hydraulic lines, valves, oil seals, gaskets and connections for leaks and deterioration. Make sure hoses are the correct length and secured to avoid kinking and chafing.

## WHAT ABOUT CONTAMINATED OIL?

Certified center managers will not accept used motor oil that has been contaminated with other fluids such as antifreeze, solvents, gasoline, or water. So please, don't mix your used oil with anything. However, if your used oil accidentally gets contaminated, your certified center manager can tell you where to take it for proper disposal. Alternatively, you can get information from your local household hazardous waste facility about how to deal with your suspected contaminated oil.

## PLEASE DO NOT:

- ◆ Dispose of the oil filter with your regular garbage.
- ◆ Do not mix oil with other fluids such as water, gasoline, or antifreeze.
- ◆ Do not pour used oil on the ground or into storm drains.
